

**Espay Solar Energy S.L.**

# **3GW energy storage project**

## Overview

---

The bill directs Illinois utilities to install 3 GW of grid-scale energy storage by 2030 and to develop programs that pay customers to harness the demand flexibility of resources such as batteries, smart thermostats and electric vehicle chargers. Georgia Power has requested certification from the Georgia Public Service Commission (PSC) for 9,900MW of new generation resources, including more than 3GW of battery storage that the utility would own. Approximately 8,000MW of the requested resources were chosen from an “all-source” request for. On Jan. Please let us know if you have feedback. - The 3GW project co-locates storage with solar facilities, leveraging existing infrastructure to reduce costs. - Despite 58% gas-heavy 2025 IRP, critics warn of stranded assets and. NextEra Energy Resources (NEER) is in the final permitting stage for its proposed 3GW BESS project in Fresno County, California. The final EIR, filed June 28th 2024, comprises a preliminary report, a draft EIR and any comments from key stakeholders and other interested parties. Across three major transactions in early 2026, at least \$2 billion in financing was recently announced.

## 3GW energy storage project
