# **Australian Energy Storage System Standards**

## Overview

---

AS/NZS 5139:2019 was published on the 11 October 2019 and sets out general installation and safety requirements for battery energy storage systems. This guidance report: has been prepared by GHD for Australian Energy Council Limited and may only be used and relied on by Australian Energy Council Limited for the purpose agreed between GHD and Australian Energy Council Limited as set out in Section 1. This standard places. A significant milestone for this work is the release of SA TS 5398:2025, Electrical Energy Storage Equipment – Safety Requirements, a new technical specification now freely available via the Standards Australia Store.

## Australian Energy Storage System Standards

---

### History, Cities, Population, Capital, Map, & Facts

Australia, the smallest continent and one of the largest countries on Earth, lying between the Pacific and Indian oceans in the Southern Hemisphere. Australia's capital is Canberra, located in ...

### Australian Battery Performance Standard

The Australian Battery Performance Standard development project is about developing an evidence based draft Standard that allows consumers and investors to make informed decisions when looking ...
