

Espay Solar Energy S.L.

Australian home energy storage cabinet brand

Overview

Local brands such as Redflow and Sonnen provide high-quality lithium-based storage options. Global ESS manufacturers, including Hicorenergy, have also expanded into the Australian market, supplying advanced lithium-ion battery systems tailored for residential and industrial use. Energy storage systems (ESS) are vital in Australia due to frequent grid instability, rising electricity costs, and the nation's rapid transition toward renewable energy. For homeowners, ESS ensures backup power during outages, while businesses benefit from reduced peak demand charges and improved. PowerPlus Energy have a range of cabinets to support the installation of their LFP Rack Mount batteries. Ranging from small battery enclosures to cabinets, including gear trays you can pre-build. Australian-made, on-grid and off-grid energy storage solutions that store solar power and can make you income through your very own Private Power Plant. Assembled and tested in Brisbane, Australia. Suitable for outdoor or indoor projects, our Slimline Range has a compact footprint ideal for smaller spaces.
