### WEG secures funding for Brazilian battery manufacturing plant

The new plant will increase WEG's BESS production capacity to up to 2 GWh per year, equivalent to 400 units of 5 MWh systems. It will also introduce a more efficient cell-to-pack ...

---

### Insertion of BESS in Renewable Plants: Case Study and

Faced with this challenging scenario, the proposed solution was to insert a Battery Energy Storage System (BESS). BESS allows the plant to store excess energy that, under normal ...

### WEG announces new battery energy storage systems (BESS) ...

WEG announces the construction of a new manufacturing plant dedicated to the production of battery energy storage systems (BESS) in Itajaí, Santa Catarina. The facility will be the most advanced in ...

### WEG to build Brazil's "most modern"

## BESS factory in Santa Catarina

Brazilian electrical equipment manufacturer WEG SA (BVMF:WEGE3) said on Wednesday it plans to build a new factory for the production of battery energy storage systems (BESS) in Itajai ...

## Matrix Energia bolsters Brazil's clean energy transition

The landmark bond issuance, the first of its kind in Brazil dedicated solely to BESS, will go a long way to supporting the country's energy transition by enhancing grid reliability, optimising ...

## BESS in Brazil: how storage can revolutionize the energy matrix

"Today, in the Northeast and North of Minas Gerais, we have a high concentration of solar and wind power plants, and the lack of stability in the grid compromises the flow of the energy ...

## BESS for Data Centers: Powering AI Beyond UPS & Diesel Generators

Data center battery storage (BESS) is replacing UPS & diesel generators to handle AI's massive power demand.

Learn how it ensures uptime, cuts cost, and aids the grid.

## The Largest Microgrid BESS Goes Online in Brazil

The State University of Campinas (Unicamp) has launched the CampusGrid microgrid with battery energy storage system (BESS) on its Barão Geraldo campus in Campinas, São Paulo. ...

## Exploring Brazil's auction for battery energy storage projects

The central goal is to deploy enough BESS to help reduce persistent load shedding (deliberate power cuts to certain areas to prevent system-wide outages). While Brazil's distributed ...

## Case Studies of Battery Energy Storage System ...

This paper presents the preliminary results of studies aiming to use a battery energy storage system (BESS) in the Brazilian transmission system.
