

Espay Solar Energy S.L.

Benin solar energy for businesses

Overview

Off-grid solar systems in Benin have led to economic advantages by creating jobs and backing local businesses, as well as improving quality of life with dependable lighting and power for crucial services. Stichting Clean Energy and Energy Inclusion for Africa (CEI Africa) has, through its Crowdlending Window, finalised a US\$1.5mn junior secured loan with Mionwa Generation SA, OnePower's special purpose vehicle in Benin, in partnership with crowdfunding platform Energise Africa. As part of the same, CEI Africa and Energise Africa mobilized \$2.9 million to finance nine rural solar mini-grids in Benin. The projects will supply continuous electricity to about 4,700 households and local businesses outside the national grid. 7 megawatt-hours of battery storage, providing reliable 24/7 electricity. Results-based financing from CEI. Benin's government has reaffirmed its intention to make renewable energy the main source of the country's power supply by 2030. To support these goals, Benin has implemented various financial.
