## Overview

---

By joining the European Bank for Reconstruction and Development (EBRD)'s Green City Programme, City of Bishkek has firmly committed to improving urban environment, decreasing pollution, improving quality of life, and joining other forward-thinking cities in setting an example. By joining the European Bank for Reconstruction and Development (EBRD)'s Green City Programme, City of Bishkek has firmly committed to improving urban environment, decreasing pollution, improving quality of life, and joining other forward-thinking cities in setting an example. By joining the European Bank for Reconstruction and Development (EBRD)'s Green City Programme, City of Bishkek has firmly committed to improving urban environment, decreasing pollution, improving quality of life, and joining other forward-thinking cities in setting an example of sustainable. In the heart of Bishkek, a powerful collaboration is transforming the city's journey toward sustainable development. The "Empowering Bishkek Stakeholders for Sustainable Development" joint programme, financed by the United Nations Joint SDG Fund, is a partnership between UN organizations—UNECE. Bishkek, the capital city of Kyrgyzstan, is experiencing a growing interest in environmental sustainability as it grapples with the impacts of urbanization and climate change. It is worth calling for a shift toward a sustainable 15-minute city model, where clean air, short commutes, and public services are accessible to all. Everyday life in Bishkek (a city of roughly 1 million people) is changing in the world. Its urban population increased by over 725 million people between 2000 and 2015 and is estimated to increase by another 88 million by 2030. The manner in which cities develop is vital for countries to achieve the 2030 Agenda for Sustainable Development and to realize their. On March 11, Aibek Junushaliyev, Mayor of Bishkek, met with representatives from the Korea International Cooperation Agency (KOICA) and the Seoul Institute, an official think tank for South Korea's capital, to discuss preparations for a project titled, Creating a Sustainable Urban Transport System.
