# **Burkina Faso lays foundation for new energy storage project**

## Overview

---

The government of Burkina Faso recently reached a public-private partnership with the Dutch company Gutami Holdings to jointly develop and construct a 150 megawatt solar photovoltaic power generation project, and to build a 50 megawatt hour battery energy storage system. The government of Burkina Faso has formalized a public-private partnership with. The project is earmarked to deliver 150MWp of solar PV power integrated with a 50MW battery energy storage system (BESS) The Government of Burkina Faso has signed a Public-Private Partnership (PPP) agreement with a local developer and a Dutch clean energy investment firm to develop a major solar. Summary: Discover how Burkina Faso is embracing innovative energy storage technologies to stabilize its renewable energy grid, reduce energy poverty, and create business opportunities in West Africa's growing clean energy sector. As West Africa's largest energy storage initiative, it's like giving Burkina Faso's capital a giant rechargeable battery - one that could power 200,000 homes during peak demand [6]. But how does a landlocked country.
