POWERCHINA Inaugurates Solar PV-Diesel Hybrid Microgrid Project ...

Spanning the Suriname and Marowijne Rivers in Saramacca province, the project integrates solar power, energy storage, and diesel generation to serve 45 forest villages.

Ten rural communities in Suriname will benefit from CDF Electrification

These microgrids will provide reliable, clean, and sustainable electricity to 1,906 residents in 10 rural communities of the Cajana and Galibi regions. The completion of this project will mark a significant ...

Micro-Grids to power 10 communities in Suriname

These micro grids will provide reliable, clean, and sustainable electricity to 1,906 residents in 10 rural communities of the Cajana and Galibi regions; and the completion of this project will mark a significant ...

Suriname Starts Building Hybrid Solar Microgrids to Power 25 Villages

The construction of three hybrid solar energy plants to serve 25 villages in Suriname is underway. Work began in December on a solar system in Daume to supply electricity to 16 villages, another in Cajana ...

Suriname solar power: Stunning 5 MW Project Cuts Diesel Use

The 5 MW solar PV microgrid was installed in the Boven Suriname area, providing consistent power to 12 remote villages and the Brownsweg area. Inaugurated in early October, the system is ...

Remote Villages in Suriname Forest Get 24-Hour Power with New Microgrid

Twelve remote villages in the Suriname forest now have access to uninterrupted power thanks to a new microgrid. The microgrid is the first to be handed over as part of the second phase of the Suriname ...

Suriname microgrid energy storage system

The second phase of the contracted

Suriname village micro-grid photovoltaic project includes: the design, procurement and construction of 5 centralized micro-grid photovoltaic power stations in the inland area of

CARICOM-backed electrification project set to benefit 10 rural Suriname

A CDF delegation, led by CEO Rodinald Soomer, visited Suriname and confirmed that installation of the micro-grids is over 90 per cent complete, with full commissioning expected before the end of 2025.

Renewable Energy in Suriname: A Pathway Out of Poverty

Hybrid microgrids and solar PV systems moving into Suriname's interior are part of this broader trend empowering communities to plan and expand entrepreneurial activities with a dependable power supply.

Suriname PV Microgrid Provides Power to Remote Villages

Twelve remote villages in the Suriname

forest now enjoy continuous power thanks to a new microgrid initiative. Once complete, the Suriname Village PV Microgrid Project will consist of five microgrids ...
