# **Cuba Centralized Grid-connected solar Inverter**

## Overview

---

With over 300 days of annual sunshine, Cuba is rapidly adopting solar energy to reduce fossil fuel dependency. Ciego de Avila, Cuba, Jul 21 (Prensa Latina)

The new Santiago Rojas photovoltaic solar park, located in the La Cuba agricultural hub of central Ciego de Ávila province, began delivering energy to Cuba's National Electrical System (SEN) yesterday after synchronizing four of its seven inverters. Cuba has successfully linked its largest solar park to.

HAVANA TIMES - The same Chinese company that designed the Soyea decoder box models for Cuba's failed digital television project is now one of the suppliers of panels used in the photovoltaic development program with which the Government intends to resolve the island's electricity crisis. That. Authorities celebrate the opening of the facility in Contramaestre, while the country faces a serious energy situation due to the shutdown of key thermoelectric power plants.
