Democratic republic of the congo grid modernization

Overview

The majority shareholders of the Kamo-a-Kakula copper complex have committed \$200 million to modernize and stabilize the power grid in the southern part of the Democratic Republic of Congo (DRC). According to official documents reviewed by Bankable, the modernization project began in late 2024. The New minigrid projects in the Democratic Republic of Congo and Zambia will accelerate access to clean, reliable electricity for rural populations. (Source: Marian Galovic/Shutterstock. com). Goma, Democratic Republic of Congo | 3 July 2023 - Nuru, one of Africa's pioneering renewable energy-powered metrogrid companies, has announced the successful close of over \$40 million in Series B equity funding and anticipates the close of an additional \$28 million in project finance by the end of. Groupe Utalii Kwetu's Angaza Energy project is a transformative initiative aimed at supporting conservation efforts and economic development in the DRC by increasing access to electricity in rural areas. But identifying and prioritising potential sites was challenging due to the limited availability of relevant.
