Electric tools for punching holes in photovoltaic panels

Overview

Metal punches are definitely the best way for thin sheet metal. But for thicker stuff, a hole saw is going to be about the only practical way. The MHP-20 Electric Hydraulic Punching Machine boasts high-efficiency hydraulic breakers, ensuring swift and precise angle iron cutting and beveling. We supply everything from a hydraulic knockout punch kit for everyday jobs to a hand. Why is it often possible to see many Edilgrappa products in action in the photovoltaic Industry?

Edilgrappa manufacture compact and portable low consumption punching machines, practical to handle and use, ideal for operations in confined spaces and suitable for holes up to Dia. These machines are essential in solar panel manufacturing and installation, ensuring accurate, repeatable, and clean perforations without. E-Rail offers a complete line of control panel punching tools. COMPACT lightweight (high tensile aluminum) hand.
