

Espay Solar Energy S.L.

Emergency Rescue Energy Storage Container 120 feet

Overview

They are custom retrofit Grade A containers that offer secure storage of critical supplies. For quick deployment in an orderly fashion, and to save time when it matters most, emergency supplies are stored on heavy-duty metro racks. Some features of our containers are:

- 20ft Disaster Relief Containers

The 20ft shipping containers are compact in size which makes it easy to transport to remote locations. The 40ft. A PODS Business Solutions Specialist will work with you to create a custom plan that can be instantly launched whenever a disaster hits. Spanning from the day a disaster starts to the end of a recovery or restoration project in the aftermath, PODS will provide flexible storage and moving solutions. Emergency Power Containers, also referred to as containerized solar energy systems or foldable PV storage containers, have become the go-to solution for disaster recovery zones, off-grid campuses, and mobile telecom networks. Fast deployment in all climates.
