

**Espay Solar Energy S.L.**

# **Energy conservation iraq**

## Overview

---

This report funded by the United Kingdom, provides a comprehensive roadmap for Iraq's energy transition. It analyzes Iraq's power sector challenges and outlines policies to enhance security of supply, integrate renewables, and improve efficiency. Because of frequent government gridlock, Federal Iraq often faces delays in forming key legislation, passing annual budgets, and financing major energy projects. Despite the extraordinary challenges of war in recent years, Iraq has made impressive gains, nearly doubling the country's oil production over the past decade. But the turmoil has also undermined the country's ability to maintain and invest in its power infrastructure. This report maps out. 1. 2% of Iraq's electricity was generated from low-carbon sources in 2023, significantly below the global average of 41% in 2024. Its share of wind and solar (0.
