

**Espay Solar Energy S.L.**

# **Energy storage battery whole unit warranty**

## Overview

---

Standard warranties for lithium-ion batteries covering both performance and defects are two years, but extended warranties can be purchased. A warranty beyond 10 years does not make sense because so much of the battery would need to be replaced after year 10. You want late-life runtime that still covers the night, a clear path to service when something breaks, and terms that match your cycling plan and local conditions. This guide speaks to US whole-home storage owners. They involve chemistry. Battery energy storage systems (BESSs) enable system operators and utility providers to store energy for later use and perform many functions to make the electrical grid smarter and more resilient. Let's explore what separates robust policies from superficial.
