## Overview

---

Algeria, located in North Africa, is the largest country on the continent by area, covering about 2.38 million square kilometres (919,590 sq mi) of land, more than 80% of which is desert, in North Africa, between Morocco and Tunisia. [1] Its Arabic name, Al Jazair (the islands), is believed to derive from the rocky islands along the Mediterranean coast, along which most of its people live, Algeria extends southward deep into the heart of the Sahara, a forbidding desert where Earth's hottest surface temperatures have been recorded and which constitutes more than four-fifths of the country's area. The Sahara and its. Algeria has 58 wilayas (provinces) : Prior to December, 2019: Adrar, Aïn Defla, Ain Temouchent, Algiers, Annaba, Batna, Bechar, Bejaia, Biskra, Blida, Bordj Bou Arreridj, Bouira, Boumerdes, Chlef, Constantine, Djelfa, El Bayadh, El Oued, El Tarf, Ghardaia, Guelma, Illizi, Jijel, Khenchela. Algeria, the second-largest Arab/African country after Sudan, is nearly one-third the size of the continental U.S. It is situated on the Mediterranean coast of Africa about midway between Tangier and Tunis, opposite Majorca. Its geography is a contrast with the mountainous, fertile terrain of the Iberian Peninsula. Algeria is located in northwestern Africa. For any website, blog, scientific research or e-book, you must place a.
