AC output wires

Heguang's Yibin solar facility progresses rapidly

Heguang Tongcheng PV aims for 16 GW capacity in Phase I by 2023's end. Phase I of two 16 GW phases, started construction in May, showing rapid progress. The company is investing ...

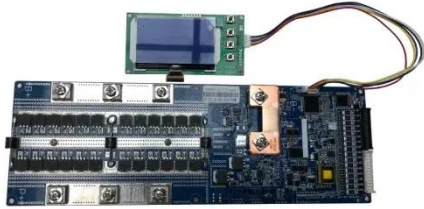

Countdown! The company plans to start production in September

The company focuses on the manufacture, production and sales of high-efficiency crystalline silicon solar cells, and is a leading company in the photovoltaic industry in Yibin City.

Heguang Tongcheng

Heguang Tongcheng manufactures batteries, provides technical services for solar power generation, and manufactures photovoltaic equipment.

Heguang Tongcheng's annual production of 32GW high-efficiency

Local photovoltaic enterprise Heguang Tongcheng incubated and cultivated in Yibin, with an annual production of 32GW high-efficiency silicon cells in Phase 1 (16GW).

When state-owned assets become the "savior of photovoltaics"

Similar to Heguang Tongcheng, Yingfa Derui is also a joint venture between Wuliangye and Yibin State-owned Assets, in addition to another major player in the photovoltaic industry, Longi Green Energy.

Wuliangye Expands Its Presence in the Photovoltaic Sector with New

Established in 2023, Heguang Tongcheng is a photovoltaic cell R&D and manufacturing company based in

Yibin, Sichuan. Its main business covers cell manufacturing, solar power ...
