

Espay Solar Energy S.L.

Hoisting photovoltaic panel bracket

Overview

The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder. The newly introduced RGC Solar Panel Carrier is the efficient, safe, and economical attachment for raising solar panels to the roof. Its steel frame provides exceptional durability and easily mounts to both 200 lb. RGC Platform Hoists, including the HandiHoist. Built for harsh waterfront environments, these systems maintain and recharge lift batteries so your hoist is ready when you are—no shore power required. Smooth, safe and easy to use ladder hoist attachment that can quickly be put on and removed. RGC's Platform Hoists and Swing Hoists are essential tools for solar panel installations, offering safe and efficient solutions for transporting heavy and bulky materials to rooftops and elevated areas.

Hoisting photovoltaic panel bracket

HOIST, SOLAR PANEL BRACKET , VHR Rental & Supply

The padded, adjustable clamps provide a safe and secure method of transporting solar panels to roof tops up to 24 ft. high.
