# **How to use energy storage solar container lithium battery container**

## Overview

---

When solar panels make more power than needed right away, the extra goes into the BESS. They hold a lot of energy in a small space. In this article, we will look at how BESS changes the way we store and use solar energy.

Containerized Battery Energy Storage Systems (BESS) are essentially large batteries housed within storage containers. What is a Containerized Energy-Storage System?

A Containerized Energy-Storage System, or CESS, is an innovative. As solar energy adoption accelerates worldwide, the challenge of efficiently storing and utilizing excess solar power has become paramount.
