# **Huawei s distributed energy storage implementation plan**

**2MW / 5MWh  
Customizable**

## Overview

---

Huawei recently announced a third-party energy storage project aimed at accelerating global renewable adoption. This collaboration highlights how cross-industry partnerships are reshaping grid stability and energy accessibility. Let's explore why this matters for utilities, businesses, and the. In 2022, our total capacity reached 5GWh, of which 4.8GWh was for large-scale energy storage. Huawei's expertise in smart grid technologies positions it as a leader in scalable storage solutions.
