

Espay Solar Energy S.L.

Ireland s new energy new solar panels

Overview

Our systems are built to perform in real Irish weather: low winter sun, overcast days, coastal winds, and everything in between. We select panels, inverters, and mounting systems that deliver exceptional performance and durability in our climate, ensuring you get maximum. Dublin, 13 November 2025 – Ireland celebrated a landmark moment in its clean energy transition, with national solar capacity surpassing 2 GW for the first time. This milestone reflects the remarkable pace of growth in Ireland's renewable energy sector. Explore our complete range of solar energy solutions — trusted by installers across Ireland. We supply high-performance solar panels from top-tier manufacturers like Jinko Solar, matched with reliable inverters from brands such as Solis, Huawei, and Sungrow. Here are just three projects of note.

Ireland's new energy new solar panels

Largest Solar Farms in Ireland (2025 Update) - Solar Now
