

Espay Solar Energy S.L.

Latvia s reliable battery container company

Overview

Developed by Utilitas Wind, a subsidiary of Estonian energy company Utilitas, the BESS project is a €7 million investment. The system comprises six containerized BESS units, inverters, transformers, and a distribution point container. On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region. Rolls-Royce will supply an mtu EnergyPack QG large-scale battery storage system with an output of 80 MW. A growing demand in the energy market for battery energy storage system (BESS) technologies is developing currently, and the trend is expected to remain stable in the future. Operating synchronously with continental.

Latvia's reliable battery container company

Container Energy Storage Systems

Atlas Copco container energy storage system range with nominal power of 250-1000kW integrates our reliable battery ESS solutions into demanding applications, reduces fuel dependence and lowers ...

Latvia's largest battery energy storage system unveiled

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in ...

Batteries , AST

In order to provide power reserves, with Decree No.674 of 24 September 2024, the Republic of Latvia's Cabinet of Ministers gave permission for AST to acquire, install and operate ...

Energy Storage Container

Production in Latvia: Powering the Green

As we approach Q4 2025, industry watchers are keeping tabs on Latvia's first gigafactory for battery cells. When operational, it'll slash import costs by 60% and create 800+ skilled jobs.

smooth and stable system

Latvenergo invests heavily in battery systems, plans to become the

The first BESS projects are being implemented in Latvia and at Latvenergo production sites - starting with the smaller-scale BESS at Latvenergo AS CHPP-1 and continuing with larger ...

The Future of Energy: Why Our New Battery Factory in Latvia is a ...

As the world pivots towards sustainable energy solutions, the demand for efficient and reliable energy storage has never been greater. At the forefront of this revolution is our new battery manufacturing ...

Utilitas inaugurates 10-MW battery in Latvia

Estonian renewable power and heat producer Utilitas has inaugurated the

first utility-scale battery energy storage system (BESS) in Latvia, a 10-MW/20-MWh facility.

Rolls-Royce supplies mtu large-scale battery storage to secure the

"We are proud to be able to make a significant contribution to this important and safety-critical project in Latvia. Our battery solutions, which belong to our strategic business fields, make a ...

Latvia's Energy Landscape Evolves with New Battery Storage Project

Latvia has taken a significant step towards a greener future with the commissioning of its first utility-scale battery energy storage system (BESS). The 10MW/20MWh BESS, located in ...

Latvia's first utility-scale battery storage project inaugurated ahead

In Latvia, developer Utilitas Wind announced the official opening of a 10MW/20MWh battery energy storage system (BESS) last week (1 November)

in Targale, a village in Latvia's north ...
