# **Malta Communication Base Station Battery Energy Storage System Construction Project**

## Overview

---

Engineering, Procurement, and Construction (EPC) tender (CT3026/24) for the Design and Build of two utility scale battery energy storage systems (BESS) at the A-Station tunnel in Marsa and Delimara Power Station in an environmentally friendly manner was issued, marking. Engineering, Procurement, and Construction (EPC) tender (CT3026/24) for the Design and Build of two utility scale battery energy storage systems (BESS) at the A-Station tunnel in Marsa and Delimara Power Station in an environmentally friendly manner was issued, marking. InterConnect Malta has been entrusted the responsibility to implement Battery Energy Storage Systems (BESS) to be connected to the Maltese National electric grid network. “Grid-scale storage plays an important role in the EU Net Zero Emissions by 2050 Scenario, providing important system services. A project to build two massive battery storage systems that can capture electricity generated from renewable energy sources is now open to bidders. The battery energy storage systems (BESS) will be located in Marsa and Delimara, on Enemalta grounds in both localities. This initiative is a significant step towards Malta's long-term climate and energy goals, focusing on reducing carbon emissions, enhancing renewable energy. The government has received 16 offers for the development of Malta's first large-scale utility battery energy storage systems, Minister for the Environment, Energy and Public Cleanliness Miriam Dalli told The Malta Independent. Interconnect Malta had launched the procurement process for the design. [https://ted.eu/udl?](https://ted.eu/udl?uri=TED:NOTICE:723067-202)

[uri=TED:NOTICE:723067-202](https://ted.eu/udl?uri=TED:NOTICE:723067-202). It provides the flexibility and resilience needed to accommodate increasing amounts of renewable energy, reducing reliance on fossil fuels and paving the way for a cleaner, more sustainable energy future.

## Malta Communication Base Station Battery Energy Storage System

---
