

Espay Solar Energy S.L.

Mexico PV Energy Storage Tender

Overview

The CFE has launched a tender for the construction of Puerto Peñasco Sequence III Photovoltaic Power Plant, in the state of Sonora, Mexico. The Mexican Ministry of Energy (SENER) has published the results of its latest call for renewable power projects, awarding 3.3GW of renewable energy capacity, of which solar PV will. With the new call scheduled for this month, industry players praise the speed and certainty of the first round but warn that technical and regulatory criteria must evolve to boost competitiveness and attract further investment. The Government of Mexico has confirmed that it will launch its second. A state-owned solar-plus-storage project being developed in Mexico firmly establishes the shift in government thinking on energy storage, a local battery storage firm told Energy-Storage. news, discussing opportunities and challenges in the country. Why did quartux & Sungrow complete a 25mwh project in Mexico?

Developer Quartux.

Mexico PV Energy Storage Tender

Mexico advances new wave of large-scale solar and storage projects - pv

Mexico is seeing a surge of large-scale solar and battery storage proposals across multiple states following an October decree that sets clearer rules for private energy investments.

Mexico launches tender for 300 MW solar plant

The CFE has launched a tender for the construction of Puerto Peñasco Sequence III Photovoltaic Power Plant, in the state of Sonora, Mexico. The project will add up to 300 MW of ...

Product Model

HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW/115KWh)

Dimensions

1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity

215KWH/115KWH

Battery Cooling Method

Air Cooled/Liquid Cooled

ENERGY STORAGE SYSTEM

Mexico's CFE Launches Tender for 300 MW Puerto Peñasco Phase ...

Once all phases are complete, the plant will reach 1,000 MW of alternating current capacity with up to 271 MW of storage. According to CFE, bids must be submitted by October 20, with final offers due on ...

Mexico 190MW battery storage

tender marks 'shift in thinking'

The Ministry of Environment and Natural Resources (Semarnat) last week conditionally authorised the construction of a transmission line for the Puerto Peñasco Photovoltaic Power Plant, a ...

Mexico launches tender for 300 MW solar plant

In its final phase, the plant will reach a total capacity of 1,000 MW of alternating current and will have storage systems of up to 271 MW. The call for proposals sets the deadline for receiving

Mexico PV Energy Storage Tender

Developer Quartux and global PV inverter and energy storage technology firm Sungrow have completed a 25MWh project in Mexico, one of the largest in the country.

CFE opens tender for Puerto Peñasco Phase III solar and storage

...

? New clean energy opportunity in Mexico ??? The Federal Electricity Commission (CFE) has opened a tender

for Puerto Peñasco Phase III, adding: ?
300 MW of solar PV (AC) ? 103

Mexico awards 3.3GW renewables, 2.6GW solar PV, capacity

The projects were fast-tracked as part of the 2025 Private Power Generation Projects Call, which saw the Mexican Ministry of Energy (SENER) award tenders to 14 companies from both ...

Mexico prepares second clean energy tender as renewables seek

A key pillar of the scheme was the mandatory inclusion of energy storage. All awarded projects were required to integrate battery systems equivalent to 30% of nominal capacity, with three ...
