

Espay Solar Energy S.L.

National subsidies for solar inverters

Overview

Up to \$1,000 rebate (legislation pending to increase to \$5,000), 100% sales and property tax exemptions, battery tax credit worth 30% of cost (up to \$5,000), SRECs at \$57 per MWh (\$400+ annually for average system). The Solar Energy Technologies Office (SETO) does not provide financial assistance to companies or individuals to install solar systems. By joining EnergySage, you will be able to receive: DSIRE is the most comprehensive source of information on incentives and policies that support renewables and energy efficiency in the United States. Established in 1995, DSIRE is operated. If you invest in renewable energy for your home such as solar, wind, geothermal, fuel cells or battery storage technology, you may qualify for an annual residential clean energy tax credit. Any system installed after this year won't qualify for the discount that's helped millions of households cut thousands off their installation costs. Over 500,000 incentives worth more than USD 70 billion are made available for projects with eligibility and potential. Illustration by NREL The number of residential solar photovoltaics.
