# **Order for 40-foot energy storage containers for subway stations**

## Overview

---

Explore our extensive selection of 40-foot containers, offering ample space and versatility for all your storage and transportation needs. This model SES-1000/2000K- 40ft Container BESS is a large-scale energy storage solution housed in a standard 40-foot shipping container. It is equipped with battery room, transformer. Category Custom Shipping Container Tags Containerized Energy Storage, Containerized Energy Storage System, Energy Storage Container Our Energy Storage Station Containers, available in 20-foot and 40-foot sizes, are engineered to house and protect critical energy storage systems. The standardized design allows for shortening the delivery. The container system is equipped with 2 HVACs the middle area is the cold zone, the two side area near the door are hot zone. 40 foot Container can Installed 2MW/4. But one of the most important factors in choosing the right solution is understanding BESS container size, including how internal battery rack layout and usable capacity. When choosing a 500 kW / 1075 kWh containerized energy storage system, you need to consider your application scenarios, equipment performance, system security, scalability, vendor reputation and many other factors.
