Photovoltaic panel 595w weight

Overview

A layer of protective glass and 1.38" thick anodized aluminum alloy frame are the primary reasons for its toughness. The Hyundai OJ Series DualMax Pro 595W Commercial Solar Module combines practical design with proven bifacial technology, making it a reliable choice for commercial installations. With its dual-sided power generation capability providing up to 25% additional energy yield and a front-side efficiency. *Bifacial Gain: The additional gain from the back side compared to the power of the front side at the standard test condition. It depends on the mounting (structure, height, tilt angle, etc. Ø 25 mm at 23 m/s 2400 Pa or 244 kg/m² 5400 Pa or 550 kg/m² Class A. Improved light trapping and current collection technology enhance module power output and reliability. 5, Irradiance 1000 W/m², Cell Temperature 25°C). Bifacial Technology: Designed to capture sunlight from both sides, enhancing energy production by utilizing reflected light. N-Type Cell Technology: Employs.
