

Espay Solar Energy S.L.

Photovoltaic panel technology appraisal agency

Overview

Appraisal Economics provides industry leading solar power valuations, as well as other power plant valuations. Our professionals bring strategic thought to decision makers who need accurate, supportable opinions within tight deadlines. Private equity firms, state organizations, power companies, law firms and banks all need solar power valuations for purposes such as understanding a facility's residual value, insurance coverage, and property tax. Of the 32 GB of new solar installations in the US in 2024, most of the installs are for utility scale, but there is a lot of growth in small commercial and residential rooftop installations. But how can their true value be precisely determined?

This is where appraisers step in. Bruce Wiley, Theddi Chappell and James Finlay - founded US Solar Value in 2017 as they saw increasing.

Photovoltaic panel technology appraisal agency
