Rooftop photovoltaic panels stolen

Overview

If your solar panels have been stolen, filing an insurance claim promptly is crucial. Start by contacting your insurance provider's claims department immediately - most companies have 24/7 hotlines for such emergencies. Recent industry reports reveal a 65% increase in solar panel theft incidents over the past two years, with homeowners facing losses averaging \$15,000 per incident. Beyond the immediate financial impact, stolen panels disrupt household energy independence and can lead to costly insurance. According to Spotter Global, theft from solar farms was expected to rise throughout 2024, with growing demand for panels making them both easier to sell and more valuable to steal. This certainly seemed to be the case, as between January and August 2024, there were at least 70 reported offences. The consequences of solar panel theft and vandalism can be severe, both financially and environmentally. Unfortunately, this is often easier said than done. Their high value and oftentimes remote location make them a lucrative target for thieves. And north of \$400,000 worth of solar.
