

Espay Solar Energy S.L.

Seychelles solar power

Overview

Seychelles is set to launch Africa's largest floating solar farm by 2025. Learn how this 15 MW project will advance renewable energy, cut emissions, and boost energy security. Spanning 32 hectares of the Providence lagoon, this ambitious project is a collaboration between the nation's Public Utilities Corporation (PUC). • Seychelles signed a 25-year power purchase agreement with France's Qair for a 5. 8 million) senior debt facility from the Facility for Energy Inclusion (FEI), managed by Cygnum Capital, to finance the development, construction, and operation of a 5.

Seychelles solar power

5MW Floating Solar Project in Providence Lagoon set to begin

The much-anticipated 5MW Floating Independent Power Producer (IPP) Photovoltaic (PV) project in the Providence Lagoon is poised to commence in the coming weeks, following the ...

Seychelles to Launch Africa's Largest Floating Solar Project

By mid-2025, Seychelles is poised to take a significant leap in renewable energy with the launch of its first floating solar farm--the largest in Africa.

Renewable Energy

The Solar Farm has doubled the amount of energy produced from renewable energy in Seychelles, reduced the emission of greenhouse gases related to electricity produced from fossil fuel, and ...

\$5.7 Million For 1st IPP Utility-Scale

Project In Seychelles

French renewable energy company Qair has secured a \$5.7 million senior debt facility for the 1st independent power producer (IPP) utility-scale project in Seychelles. The 5.8 MW project will ...

Qair secures USD 5.7 million financing for floating solar plant in

Developer Qair secures a loan from the Facility for Energy Inclusion to build a 5.8 MWp floating photovoltaic solar plant in Providence Lagoon, the first utility-scale project of its kind in Seychelles.

Seychelles' 'first utility-scale' floating solar project secures

As the first IPP utility-scale project in Seychelles and one of the largest floating solar PV projects in Africa, it represents a significant milestone for the region.

Qair kicks off construction of floating solar power plant in Seychelles

With commissioning planned for 2026, the Seysun Lagoon project will play a pivotal role in helping Seychelles achieve

its goal of sourcing 15% of national electricity from renewable energy ...

Renewable Energy - Ministry of Environment, Climate, Energy and ...

The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar. However, renewable energy has been very little tapped so far - the only renewable energy ...

Seychelles Launches Floating Solar Project to Cut Fossil Fuel

The Republic of Seychelles has launched construction of a 5.8 MW floating solar power plant to reduce its reliance on imported petroleum products. The Public Utilities Corporation (PUC) ...

Seychelles starts work on landmark floating solar project

Seychelles has launched construction of its first utility-scale floating solar power

plant, a 5.8MW project in the Providence Lagoon on Mahé Island. It is expected to play a pivotal role in ...
