

Espay Solar Energy S.L.

Sharing a case study of photovoltaic panel installation scams

Overview

Last quarter, SunPro Solutions collapsed amid allegations of installing 2,400 defective systems using counterfeit PERC cells. Their sales reps had perfected the art of "solar-speak" - throwing around terms like TOPCon technology and CTM ratios to confuse homeowners. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. Here are red flags to look out for when. FILE - Newly-installed solar energy panels hang on the exterior of a residential house. (Photo by Sean Gallup/Getty Images) SEATTLE — Scammers across the U. Many homeowners never get any solar equipment installed; those who do often. Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. Dissatisfaction with the solar.

Sharing a case study of photovoltaic panel installation scams
