

Espay Solar Energy S.L.

Solar Energy Storage Device Scam

Overview

We'll walk you through the most common solar scams, the red flags that should make you pump the brakes, and how to find installers you can actually trust. Disclaimer: This article is intended to provide an informational overview of consumer protections for interested homeowners. While reputable companies can help you save money with clean or solar energy improvements, scammers offer more than they can deliver. The scams vary, but here's the gist: someone claiming to be with the government or your utility company promises big savings on your utility bills from solar energy. Find a network of trusted installers for solar system, solar panels and electricity needs. Find a solar panel installer today! Whether it's door-to-door or online, a forceful salesperson might inform you that a certain deal, like a financing rate or an incentive program, will only remain available. Tech expert Kurt Knutsson says cybercriminals are exploiting iMessage phishing protection, tricking users to reactivate links. She holds a master's degree in international and intercultural communication from the American University School of International Service. Her writing has appeared on the student.
