

Espay Solar Energy S.L.

Solar power generation rural entrepreneurship subsidies

Overview

The program provides guaranteed loan financing and grant funding to agricultural producers and rural small businesses for renewable energy systems or to make energy efficiency improvements. The new rules eliminate USDA support for large solar farms on prime farmland and ban foreign-manufactured panels in all. Solar offers many benefits for farms and rural businesses. Like all businesses, a farm or rural business will benefit from tax savings. In July 2025, Congress voted to repeal tax credits for solar. A prime example of our expertise is the 309 kW solar electric system we completed for Stoller Winery in 2016.
