

Espay Solar Energy S.L.

St george demand response

Overview

When the grid is experiencing unusually high demand for electricity, electric supplies are low or a grid emergency is declared, participants of the Capacity Bidding program (CBP) will be called upon to reduce their energy usage. Everyone wins when businesses reduce energy as the local grid approaches critical peak demand. Supply and demand stay balanced. And, Pacific Gas & Electric (PG&E), southern California Edison (SCE) and San Diego Gas and Electric Company (SDG&E) each provide monthly reports on their demand response programs.

St george demand response

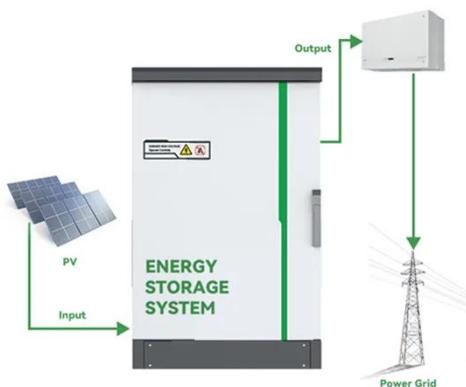

SDG& E Demand Response

How does it work? When SDG& E determines that it needs more supply to meet demand, it dispatches Enel's demand response network, which is made up of local organizations that have agreed to ...
