

**Espay Solar Energy S.L.**

# **Standard pv module prices in venezuela**

## Overview

---

Below is the average daily output per kW of Solar PV installed for each season, along with the ideal solar panel tilt angles calculated for various locations in Venezuela. Click on any location for more detailed information. Venezuela, Caracas, receives on average 2,688 hours of sunlight per year, with an average of 7:21 of sunlight per day. 046 per. Meta Description: Discover the latest trends in Venezuela's photovoltaic solar panel wholesale market. Get data-driven price analysis, supplier selection tips, and insights on renewable energy policies. Learn how to optimize costs for commercial solar projects. In this article, we will explore the meaning of solar energy, provide an executive summary of the market, discuss key market. Average price of solar modules, expressed in US dollars per watt, adjusted for inflation. Data source: IRENA (2025); Nemet (2009); Farmer and Lafond (2016) - Learn more about this data Note: Costs are expressed in constant 2024 US\$ per watt. Global estimates are used before 2010; European market. How does 6Wresearch market report help businesses in making strategic decisions?

6Wresearch actively monitors the Venezuela Solar Photovoltaics Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook.
