## Overview

---

With a powerful output of 590Wp and an impressive efficiency of 22.87%, it uses advanced 144-cell N-Type TOPCon technology to deliver more energy per square foot—even in low light or high-temperature conditions. Sungoldpower N-Type High efficiency bifacial module solar panels that can capture sunlight on both their front and back, it can generate up to 30% more energy than conventional solar panels, N-Type bifacial solar panels are ideal for installations where the backside of the solar array is exposed. Sungoldpower N-Type High efficiency bifacial module solar panels that can capture sunlight on both their front and back, it can generate up to 30% more energy than conventional solar panels, N-Type bifacial solar panels are ideal for installations where the backside of the solar array is exposed. Captures sunlight from both sides, generating 30% more power than monofacial panels for maximum efficiency. The Renogy 590W bifacial solar panel delivers higher efficiency and up to 7% more output, maximizing energy generation without increasing panel size.
