# **Swedish portable solar container system**

## Overview

---

With rising electricity prices and climate targets, Sweden is pouring €220 million into renewable energy incentives until 2030. Mobile solar containers – compact, plug-and-play systems – now qualify for grants up to 30% of installation costs. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. But why these portable units instead of traditional panels?

Order moves solar. What is LZY's mobile solar container?

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.
