The largest wind turbine

The largest wind turbine

How Big Is The Largest Wind Turbine In The World & How Much ...

With a capacity to generate 15 megawatts of power, the Vestas V236-15.0 MW is the largest and most powerful wind turbine as of 2025 to have been commercially deployed.

Top 13 Largest Wind Farms in the World by Capacity

Explore the top 13 largest wind farms in the world by capacity, with key facts, stats, and global clean energy insights.

The World's Largest Wind Turbine Will Smash Previous Records

The world's largest wind turbine--currently being tested off the coast of China--has blades that are more than twice as long as a Boeing 777's wingspan.

List of most powerful wind turbines

This is a list of the most powerful wind turbines. The list includes wind turbines with a power rating that is within 5 MW of the current most powerful wind turbine that has received customer orders that is at ...

The World's Biggest Wind Turbine: A Monument to Renewable Energy

The Vestas V236-15.0 MW is the largest wind turbine in the world, with blades stretching 115.5 meters and a total height of 280 meters. Generating 15 MW of power, it can supply electricity to ...

"Biggest Wind Turbine Ever": China Smashes All Records With This

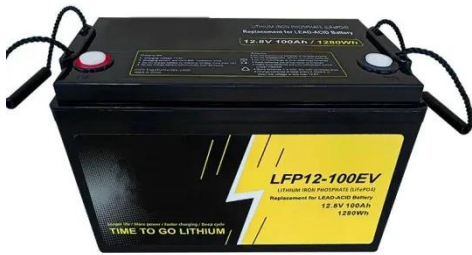

? China has built the world's largest wind turbine, standing at 607 feet and producing 26 megawatts of power. ? This technological marvel is part of the Fujian Fuzhou offshore wind farm and ...

World's largest wind turbine goes online

The largest wind turbine currently operational is the Haliade-X, designed by General Electric. Standing at an astonishing height of 260 meters with a

rotor diameter of 220 meters, it boasts a

The Largest And Most Powerful Wind Turbine Ever Built Is Now

The MySE 16-260 earns its largest-ever tag thanks to its rotor diameter of 260 meters (853 feet) and its swept area of 53,902 square meters (580,196 square feet); it's also the most ...

List of Top 10 Wind Turbine Models in the World [2025]

List of largest wind turbine models, based on rotor diameter and wind turbine sizes. Learn how different models of wind mills impact energy production.

Largest wind turbine

The largest wind turbine is the MySE 16-260, built by Mingyang Smart Energy (China) for the China Three Gorges Corporation (CTG). The MySE 16-260 has a rotor diameter of 260 m (853 ft), with

...
