

Espay Solar Energy S.L.

The outdoor power supply is fully used before charging

Overview

To ensure optimal performance and longevity, we strongly recommend completing a full charge before use. During the first three charging cycles, it's advisable to charge an extra 1-2 hours after the battery is fully charged. Learn industry-proven tips and avoid common mistakes. But here's the catch: most lithium-ion. After receiving your GREEN POWER outdoor power supply, the first charge is crucial. Promote longer stays, better productivity, and an optimal outdoor experience at higher education campuses, offices, parks, patios, and more.
