Weird solar-powered communication cabinet inverter connected to the grid

Overview

energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters connected to critical infrastructure grids across the country. These inverters, which are essential components that convert direct. For months, experts examining renewable energy equipment imported from China have been quietly finding rogue components in solar inverters and large batteries, two people familiar with the investigations told Reuters. The report cites US energy officials and warns that comms devices—including cellular radios—have. U.

Weird solar-powered communication cabinet inverter connected to

US uncovers hidden radios in Chinese solar inverters, sparks alarm

U.S. energy officials are reportedly reassessing the security risks posed by Chinese-made components in renewable energy infrastructure after discovering hidden communication ...

U.S. officials Investigating Rogue Communication Devices in Solar Power

U.S. energy officials have launched an investigation after discovering unauthorized communication equipment embedded within Chinese-manufactured solar power inverters connected ...

Hidden Devices in Solar Grid Inverters and Batteries

Over the past nine months, forensic security teams have logged multiple brands of Chinese solar inverters containing hidden wireless communication equipment. Investigators have ...

U.S. Allegedly Finds Rogue Communication Devices in Chinese-Made Solar ...

The report cites US energy officials and warns that comms devices--including cellular radios--have been found in solar inverters, which are used to connect solar panels to electricity grids,

Investigators Discover Hidden Communications Devices in US Solar Grid

U.S. energy-sector forensic teams have begun disassembling Chinese-manufactured solar inverters and grid-scale batteries after discovering undocumented 4G/LTE modules and other wireless ...

Ghost In The Machine? Rogue Communication Devices Found In

US energy officials are reassessing the risk posed by Chinese-made devices that play a critical role in renewable energy infrastructure after unexplained communication equipment was found inside

Hidden Communication Devices Found in Chinese-Made Inverters ...

For months, experts examining

renewable energy equipment imported from China have been quietly finding rogue components in solar inverters and large batteries, two people familiar with ...

'Rogue' communication devices found on Chinese-made power inverters

U.S. officials have discovered undisclosed communication devices on Chinese-made power inverters that were being used on solar panels, Reuters reported today based on anonymous ...

China's Unseen Cyber Threat to Energy Security

Every solar panel and battery connected to the U.S. energy grid relies on a device few people ever consider: the power inverter. In May of 2025, U.S. experts found undocumented ...

Rogue communication devices found in Chinese solar power inverters

LONDON, May 14 (Reuters) - U.S. energy officials are reassessing the risk posed by Chinese-made devices that play a

critical role in renewable energy
infrastructure after unexplained
