Wellington Energy Storage Containers for Highways

Overview

Our storage systems feature seismic-resistant, moment-resisting reinforcements, offering the strength and flexibility to evenly distribute seismic forces and absorb energy without collapsing. While the Wellington A-CAES project is not part of the REZ, the REZ does provide opportunities for Hydrostor to utilise. Anecdotal evidence shows that stackable pallets and stack rack made by Tier-Rack Corporation perform well under seismic conditions and impact due to their ability to absorb the shock waves, by swaying, and moving across the floor. Please see the videos below for examples of how standard “rack”; in. From construction sites needing secure equipment shelters to logistics companies requiring modular offices, shipping container solutions have become the Swiss Army knife of industrial storage. It has good mechanical strength, welding performance and cost advantages, and is suitable for mass production and complex structure manufacturing. You can access the Wellington container storage yard seven days a week during the hours of 7.
