

**Espay Solar Energy S.L.**

# **Which is the manchester power generation and energy storage project in the uk**

## Overview

---

With a total capacity of 680 MW/1360MWh, Carrington is one of the UK's largest single-site storage projects to reach financial close. Pulse Clean Energy today announces that its 30MW / 67MWh battery energy storage system (BESS), located in Atherton, West of Manchester, is now operational. At 680MW, it will. London and Manchester, 21 November 2025: Highview, a global leader in long duration energy storage solutions (LDES) today welcomed Andy Burnham, Mayor of Greater Manchester, to the official breaking of ground for its new facility - the world's largest commercial-scale liquid air energy storage. Envision Energy, a prominent company in green technology, has partnered with UK-based Statera Energy to provide the battery energy storage system (BESS) for the Carrington Storage project. The 67 MWh site, once used for coal extraction, has been transformed to support a cleaner energy system by storing excess energy from renewable generation when production is high and.

## Which is the manchester power generation and energy storage proj

---

### University of Manchester to lead £3m project to transform long ...

The University of Manchester is to lead a major new research collaboration to develop GPStore, a pioneering long-duration energy storage technology that could play a vital role in supporting the UK's ...
