Wp Photovoltaic panel installation

Overview

But if you want to put solar panels on your roof, where do you start?

Our step-by-step guide will take you through the solar panel installation process from start to finish. This includes finding the right installer and what to expect on the day the installation. Solar panel installation costs range from \$15,000 to \$30,000 for an average American home, with a payback period of 6 to 10 years depending on your state's incentives and sun exposure. This comprehensive guide walks you through every step of your solar project, from initial assessment to system. This general manual provides important safety information relating to the installation, maintenance and handling of CS-series solar modules. Professional installer must read these guidelines carefully and strictly follow these instructions. Are you thinking about generating all or part of your household electricity from sunlight?

If so, you've probably wondered how home solar panel installation works. (hereafter referred to as "JA Solar).
